**Eviction Moratorium.**

- The WA Government introduced legislation that placed a six-month moratorium on residential tenancy evictions.
  - The new legislation prevents people from being evicted from a residential tenancy, but they must continue to pay rent. If tenants cannot afford to pay rent they should
let their landlord or property manager know as soon as possible. If they cannot afford to pay rent they can stay in the property but will accumulate the unpaid rent as debt which has to be paid eventually. Rent is not being waived.

- Tenants can still have their leases terminated and be evicted if they are causing damage to the property, posing a threat to the landlord or neighbours, not paying rent, refusing to make a rent payment agreement or if they abandon the property. Provisions supporting victims of family violence continue to apply.
- The Commissioner for Consumer Protection has issued some advice about renting during COVID-19. The frequently asked questions here address residential tenancy issues and how they are covered by legislation.
