

Unpack the Facts – Young Humanitarian Challenge (Individual Activity)

Dear Teacher,

Thank you for inviting the *In Search of Safety* team to visit your class and assisting the students with being part of the Young Humanitarian Challenge. The aim of the challenge is for the students to take what they have learnt from the session and become a humanitarian through taking action by educating their circle of family and friends about the facts of asylum seekers and refugees. The hope is for the students to have some interesting and engaging questions about an important matter affecting our global world with their family and friends.

The activity requires one lesson to allow the students to make their own suitcase, put their questions inside and take an answer sheet home to begin their challenge. As the teacher you are welcome to set the timeline for the challenge, however we recommend two weeks for the students to return the answer sheet.

In this package you have resources to be printed for each student:

- Suitcase template
- Suitcase instructions
- Quiz questions
- Answer sheet
- Terminology sheet
- Travel badges (to be shared amongst students)

Each student will require:

- Glue
- Scissors
- Texta / pencil

Please provide a list of names of the students who successfully complete the challenge (you can use the list template provided) and return it to Red Cross so that we can post out their Young Humanitarian Certificates.

Student names and the completed answer sheets can be emailed or posted (attention: In Search of Safety) to your local office using the contact information on the next page.

Thank you for your time and energy with this activity.

Regards,

Alison Cook
