

Explanatory Notes and Information

Preferences and Skills Matrix

1.1 Why use a Preferences and Skills Matrix?

The role of the Division Council under the Governance Regulations is carried out by the Division Council as a group.

The Preferences and Skills Matrix is intended to help Division Councils to assess whether there are any gaps in their collective skills and experience, that may be desirable to look for in new members of the Division Council.

1.2 Why Consider This Now?

The upcoming Division Annual General Meeting process makes it a timely opportunity to identify experience and skills gaps that the Division Council wants to focus on when undertaking its election or appointment processes under the Governance Regulations.

1.3 How to use the Preferences and Skills Matrix?

Ask each existing Division Councillor to self-assess their Preferences and skills using the key:

- o = High
- o left blank = Low

Note: It is important that when you are seeking to appoint (as opposed to elect) people as Division Councillors, that you ensure that they align with gaps identified in the Preferences and Skills Matrix.
